

Cambium Networks: PMP 450m End-User Promotion

Cambium Networks is offering credit toward the future purchase of the 3 GHz cnMedusa™ (PMP 450m), when they are released in Q3 2018. To qualify for the promotion, the PMP 450i 3 GHz AP must be purchased between February 7, 2018, and June 30, 2018.

Promotion Start Date: February 7, 2018

Promotion End Date: June 30, 2018

The unique Authorization Code provided to the End Customer toward the purchase of a new PMP 450m must be used by June 28, 2019.

End customers who purchase a 3 GHz PMP 450i AP between February 7, 2018, and June 30, 2018 (at MDP), can get the FULL AMOUNT paid in credit toward the purchase of the 3 GHz PMP 450m when it becomes available. Credit will be issued only at the time of the new purchase. The credit is valid only toward a purchase of a new unit (in a 1:1 ratio). There are no cash refunds for this credit.

For example, a customer purchases an Integrated 3 GHz PMP 450i AP (C030045A002A) for \$2,556 (MDP of the MSRP of \$3,195). The customer is then entitled to \$2,556 in credit toward the purchase of a 3 GHz PMP 450m (also at MDP) when it becomes available.

End Customers will need to contact their Cambium RSM to receive a unique authorization code to apply towards a new purchase of the 3 GHz PMP 450m and provide that code to the distributor upon placing the order. All 450m authorization codes must be used by June 28, 2019.

Eligible FCC Part Numbers:

When an End Customer purchases a PMP 450m Limited AP (at standard MDP), they can get an entitlement key for the upgrade to full MU-MIMO functionality for Free.

MFP PN:	Description
C030045A001A	3GHz PMP 450i Connectorized Access Point
C030045A002A	3GHz PMP 450i Integrated 90 degree Sector Antenna
