

SIAE MICROELETTRONICA ALFOPLUS80HD

E-Band Promotion

siae microelettronica

Operating in the lightly-licensed E-Band spectrum, ALFOPlus80HD combines ultrahigh capacity (up to 2.5 Gbps full-duplex / 5 Gbps aggregate) transmission rates in a carrier-grade, compact, all-outdoor enclosure. ALFOPlus80HD is a feature-rich backhaul solution that yields fiber-like high capacity along with the low latency performance required for today's fixed, mobile and enterprise networks.

Ideal for universities, hospitals, private networks, video surveillance backhaul for municipalities and government agencies, or for carriers, service providers and WISPs, ALFOPlus80HD extends the network with multi-gigabit connections across the street, across the campus or across town for quick and easy deployments where fiber can't be extended or where fiber is too costly to implement.

Q1 2018 Certified VAR Promotion

As a special promotion to our Certified VARs, SIAE MICROELETTRONICA is offering an exceptional price on a bundle package for our ALFOPlus80HD product. The packages include radios, full 2.5 Gbps of capacity upgrade, ACM activated upgrade, 4 SFPs and 1' or 2' antennas. With this promotion you and your customers will have the peace of mind knowing that you are not only buying the best engineered product on the market today, but you also have the confidence with a fully supported product, company stability, carrier proven quality, superior performance, and a team that will be here long after the sale is completed.

Please contact your Hutton Account Manager for Pricing

AP80HD Bundle includes: High Band TX ODU, Low Band TX ODU, Two 1' or 2' single pole antennas, 2 Gbps FDD capacity upgrade, ACM capacity upgrade, Four SFPs (specify SM or MM). Does not include CAT5 cables, fiber jumpers, PoE injectors, power supplies, surge arrestors or other accessories that may be required to install a complete link.

Q1 2018 ALFOPlus80HD Certified VAR Promo Terms and Conditions

- 1) Promotion is valid on orders placed between January 1 thru March 31, 2018 through Hutton Communications
- 2) Pricing provided under this promo is only valid upon approved SIAE deal registration. Certified VARs must register the opportunity with their sales director or distributor for approval by SIAE.
- 3) Valid for new, standard SIAE ALFOPlus80HD radio systems.
- 4) Cannot be combined with any other programs, discounts or incentives. As the products in this promotion are significantly discounted, the standard discounts given to Certified or Platinum VARs are not applicable to sales of products under this promotion.
- 5) Sales must be validated by distributor's POS report showing customer name.
- 6) SIAE reserves the right to terminate this program at any time.
